2025 FOOD TRUCK RALLY SPONSORSHIP LEVELS

2025 BENEFICIARY

Lakota Robotics is a community FIRST® Robotics Team of over 60 students from 11 school districts.

Each year, the team designs, builds, and programs a robot to compete in an international competition. The team is dedicated to community outreach - helping Girl Scouts earn their STEM badges, teaching robotics workshops at the Boys & Girls Club of West Chester/Liberty, mentoring elementary school LEGO robotics teams, and holding demos at community events. Anyone in grades 7-12 can join the team at no cost. The organization is 100% volunteer run with no paid staff. In October 2024, Lakota Robotics opened the Paul George STEM Center, named after their beloved late mentor. This facility will allow them to grow their team, expand their outreach, and create even more opportunities for the younger generation to explore STEM.

THE BENEFITS

\$10,000
